Benchmarked to Downtown Toronto residential market data (TRREB / Teranet). Income yield potential: 4.0%–8.0%, asset dependent.

STRATEGY OVERVIEW

The Fund targets a diversified portfolio of real estate and real-asset investments across Canada and select European markets — stabilized income-producing properties, development opportunities, structured finance, infrastructure, and high-quality receivables.

A conservative capital structure, rigorous underwriting, and active asset management underpin the strategy. By focusing on tangible assets with strong cash-flow characteristics, the Fund aims to deliver stable income and long-term capital appreciation while preserving investor capital.
