

Fund Services Overview

Institutional Alternative Investments. Backed by Real Assets. Built for Capital Preservation.

PQS Fund SPC is a Cayman Islands Segregated Portfolio Company (SPC) regulated by the Cayman Islands Monetary Authority (CIMA), providing qualified and accredited investors with access to institutional-grade alternative investment opportunities through a diversified platform of asset-backed investment strategies.

Managed by PQS Capital Partners, a licensed Bahamas investment manager, the Fund combines institutional governance, regulatory oversight, disciplined risk management, and tangible asset ownership to deliver investment solutions focused on capital preservation, income generation, and long-term wealth creation.

Unlike many alternative investment platforms that rely primarily on financial engineering or leveraged market exposure, PQS Fund is founded on a simple principle: every investment strategy should be supported by identifiable, high-quality underlying assets whenever appropriate to the strategy. The Fund focuses on acquiring, financing, and managing investments secured by institutional-quality assets across Canada, Europe, and other developed markets.

A Regulated Institutional Investment Platform

PQS Fund operates within a comprehensive institutional governance framework designed to provide transparency, accountability, and investor confidence.

Our investment platform includes:

- Cayman Islands Monetary Authority (CIMA) regulated Segregated Portfolio Company (SPC)
- Managed by PQS Capital Partners, a licensed Bahamas Investment Manager
- Independent Fund Administration
- Independent Annual Audit
- Independent Directors
- Comprehensive AML/KYC and Compliance Framework
- Institutional Custody and Prime Brokerage Relationships
- IFRS Financial Reporting
- Robust Corporate Governance Standards

Each investment portfolio within PQS Fund is structured as a distinct segregated portfolio and is intended to maintain its own internationally recognized ISIN and/or CUSIP identification, facilitating institutional investment, custody, reporting, and global securities administration.

Asset-Backed Investment Philosophy

Capital preservation remains the cornerstone of every investment decision.

The Fund seeks to maintain meaningful exposure to tangible, income-producing assets that provide intrinsic value beyond traditional financial markets. These assets are primarily located within stable developed economies, with particular emphasis on Canada and Europe.

Underlying assets may include:

- Commercial Real Estate
- Residential Developments
- Healthcare & Assisted Living Facilities
- Industrial & Logistics Assets
- Infrastructure Projects
- Operating Businesses
- Precious Metals
- Institutional Financial Assets
- Specialized Asset-Backed Opportunities

This disciplined approach seeks to reduce downside risk while providing investors with diversified exposure to sectors that exhibit long-term structural demand.

Diversified Investment Strategies

PQS Fund offers a suite of institutional investment strategies across multiple alternative asset classes.
