For **ASSET BACKED SP1** = Asset-Backed Fund

Institutional-grade investment strategy providing exposure to a diversified portfolio of high-quality Canadian and European hard assets, structured finance, and real assets—all held within the Fund to prioritize capital preservation and long-term value creation.

- Every dollar invested is supported by corresponding underlying assets owned or controlled by the Fund, providing a fully asset-backed investment structure.
- Diversified exposure to income-producing real estate, infrastructure, structured finance, receivables, and other institutional-quality alternative assets.
- Conservative capital management emphasizing asset security, prudent underwriting standards, and long-

term capital preservation over speculative investment strategies.

- Highly disciplined portfolio construction with institutional governance, independent oversight, and rigorous due diligence designed to protect investor capital.
- Designed exclusively for qualified and accredited investors seeking stable, asset-backed returns through a regulated Cayman Islands investment vehicle managed by a regulated Bahamas investment manager.

For **ASSISTED LIVING SP** = Assisted Living Canada Fund provides institutional investors with income-oriented exposure to essential senior housing and assisted-living real assets through a fully asset-backed investment strategy backed by prime Canadian real estate.

- The Fund focuses on the development, ownership, and operation of affordable assisted living communities that generate stable, recurring income from a defensive, demographically driven sector supported by Canada’s rapidly aging population and predictable pension-based resident income.
- Designed as essential social infrastructure rather than traditional real estate, the Fund combines conservative asset backing, long-term capital appreciation, and targeted regular distributions with strong government alignment, healthcare integration, and meaningful ESG impact, offering investors a resilient investment platform focused on capital preservation, sustainable yield, and long-term value creation.
- [CLICK FOR MORE DETAILS](#) – use the file entitled “*Assisted Living SP*”

For **ART BACKED SP** = The Fund provides institutional investors with professionally managed exposure to museum-quality fine art and art-secured financing strategies through a diversified portfolio of globally recognized masterpieces and structured investment opportunities.

The Fund combines long-term capital appreciation from scarce, investment-grade artworks with innovative art-backed financing, lending, and monetization strategies designed to enhance capital efficiency while preserving ownership of appreciating assets.

- By diversifying across renowned artists, historical periods, geographic markets, and structured finance transactions, the Fund seeks to balance meaningful long-term upside with disciplined risk management and lower correlation to traditional financial markets.
- Designed for qualified investors seeking tangible hard assets, inflation protection, and institutional-grade wealth preservation, the Fund offers a differentiated alternative investment platform focused on capital appreciation, portfolio diversification, and the strategic utilization of one of the world's most enduring stores of value.

For **CanaExtract Fund** - the Fund provides qualified investors with asset-backed exposure to a vertically integrated cannabis extraction, manufacturing, and processing platform centered on proprietary, patent-pending extraction technology.

- Focused on the highest-margin segment of the regulated cannabis industry, the Fund invests in licensed extraction and processing infrastructure rather than commodity cultivation, generating diversified revenue from toll processing, premium oil production, white-label manufacturing, branded consumer products, packaging, and international distribution.
- Supported by tangible operating assets, proprietary machinery, and intellectual property, CanaExtract is strategically positioned to capitalize on the growing global demand for premium cannabis oils and extracts, evolving regulatory frameworks, and expanding medical cannabis markets.
- The Fund offers a concentrated, conviction-led investment strategy with meaningful long-term upside through scalable infrastructure, multiple recurring

revenue streams, and exposure to one of the fastest-growing segments of the global cannabis industry.

- CLICK FOR MORE DETAILS – make the link into the CanaExtract website it is perfect. Also we registered canaextract.com please advise on where to point the domain name, this should be completed as well.

For PHARMA FUND SP – (NEW INFO) AI Precision

Pharmaceutical SP - Concentrated, conviction-led exposure to the next generation of pharmaceutical innovation through patented cannabinoid active pharmaceutical ingredients (APIs), AI-enabled drug discovery, precision medicine, and regulated pharmaceutical intellectual property.

- Our strategy targets high-value opportunities across pharmaceutical manufacturing, licensing, royalties, structured financing, and therapeutic development, underpinned by a fully issued process patent, compliance-driven operations, and proprietary AI-powered discovery.
- By combining pharmaceutical-grade cannabinoid production with advanced data analytics and precision therapeutics, we seek to build a differentiated portfolio of scalable healthcare assets positioned at the intersection of biotechnology, artificial intelligence, and regulated pharmaceuticals.
- This concentrated strategy is designed to capture asymmetric long-term value through proprietary intellectual property, strategic partnerships, and the commercialization of next-generation cannabinoid-based medicines, while recognizing the elevated risk and volatility inherent in early-stage pharmaceutical innovation.
